GLOBAL_PROTECT_64-5.0.8_STUDENT
Mozilla Firefox 77.0

Click to open up a new Google Chrome browser

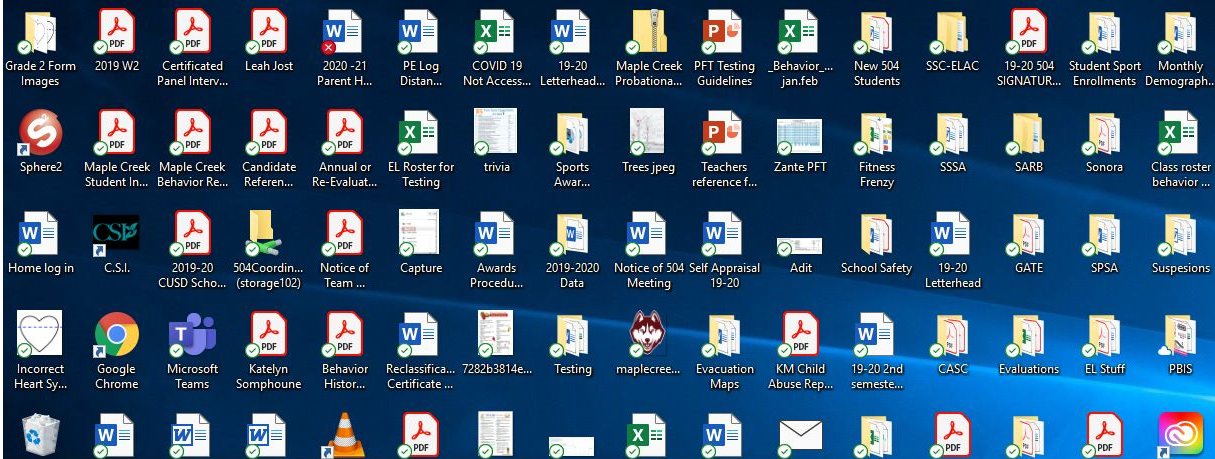

No internet

Try:

- Checking the network cables, modem, and router
- Reconnecting to Wi-Fi
- [Running Windows Network Diagnostics](#)

ERR_INTERNET_DISCONNECTED

If you still don't have an internet connection you are probably frustrated, and I don't blame you. There is one more thing we can try.
